

# [GCCE 2026] OS Proposal Application Form

Submission deadline is **March 9**, 2026.

Past OS list can be found at: <https://www.ieee-gcce.org/2025/organized.html>

## **【OS Proposal Guideline】**

An Organized Session (OS) is expected to focus on a **timely, emerging, or cross-disciplinary topic** within the broad field of Consumer Electronics, and to attract a coherent set of high-quality presentations.

Please note the following guidelines when proposing an OS:

### **1. Scope and Expected Scale**

An OS is expected to attract a sufficient number of accepted papers to form a dedicated session.

In principle, it is expected that an OS will result in **six (6) or more accepted oral presentations**, corresponding to **one 2-hour session**.

*This number is indicative and not guaranteed, as final acceptance depends on the peer-review results and overall program balance.*

### **2. OS Chair and Co-Chair Eligibility**

The OS Chair and Co-Chair are expected to be **established researchers actively contributing to and leading the proposed research field**.

**Students are not eligible** to serve as OS Chair or Co-Chair.

### **3. Reviewer Recommendation**

Given the specialized nature of OS topics, the OS Chair and Co-Chair may serve as reviewers for the OS submissions, except for their own papers. They are also expected to **recommend at least two (2) additional qualified reviewers** in the proposed area.

### **4. Review and Approval of OS Proposals**

All proposed OSs will be reviewed by the **Technical Program Committee (TPC)**, taking into account thematic relevance, potential overlap with other proposals, and compliance with these guidelines.

The TPC will decide whether each proposal is accepted as an OS.

### **5. Responsibilities After OS Acceptance**

For an accepted OS, the OS Chair and Co-Chair are expected to **take responsibility for coordinating the peer-review process and managing the review progress**, in close cooperation with the TPC.

### **6. Final Decision on Paper Acceptance**

Even for papers submitted to an OS, the **final decision on acceptance or rejection** will be made by the **Technical Program Chair**, based on the overall review results and the conference program structure.
